GONZATO DESIGN

FINE WROUGHT
IRON FORGINGS

L'attenta ricerca tipologica che sta alla base di questi prodotti dal design rivoluzionario li qualifica tra le più moderne e riuscite interpretazioni dell'antica e nobile arte del ferro battuto.

The revolutionary design of these products, founded on careful typological research, makes them among the most modern and successful interpretations of the ancient and noble art of wrought iron.

Pannello pre-assemblato (Art. GD236/1)
Pre-assembled panel (Art. GD236/1)

Gonzato Design è la linea di prodotti Arteferro caratterizzata da uno stile innovativo. I motivi classici del ferro battuto si fondono e dialogano con le geometrie moderne dando vita ad un insieme unico che parla di passato e futuro. Le linee in stile Classico di inizio '900 sono mediate con una sensibilità contemporanea che razionalizza lo spazio e lo rende elegante e preciso.

Tra gli articoli Gonzato Design anche i **pannelli pre-assemblati** che, pronti per l'installazione, sono pensati per facilitare il lavoro dell'artigiano: basta unirli tra loro o accoppiarli a dei semplici paletti di ferro liscio per realizzare la propria composizione. Una soluzione di design e pratica che consente un notevole risparmio di tempo e denaro. Come tutti i prodotti Arteferro anche i pannelli pre-assemblati possono esser prodotti anche **anche su misura**.

The **Gonzato Design** product line by Arteferro is set apart by its innovative style. The classical wrought iron motifs interact with modern geometry, creating a unique combination of past and future. The lines, inspired by the Classic style of the early 1900s, are mediated with a contemporary awareness, rationalising space and making it elegant and precise.

The Gonzato Design range also includes **preassembled panels**, ready for installation, designed to facilitate the work of the craftsman: just join them together or connect them to simple smooth iron posts to make your own arrangement. A practical design solution that allows for considerable savings in terms of both time and money. Like all Arteferro products, the pre-assembled panels can also be custom-made.

Gonzato Design tra Fantasia, rigore e innovazione.

Gonzato Design: creativity, precision and innovation.

La quarantennale esperienza degli Architetti Bruno Gonzato e Stefania Buccio e le sempre maggiori possibilità tecniche di lavorazione del ferro hanno permesso di maturare la consapevolezza di come questo materiale può essere sagomato non soltanto in forme classiche e tradizionali ma anche in sempre più moderne ed originali soluzioni.

Architects Bruno Gonzato and Stefania Buccio bring their forty years' experience together with new technical ironworking possibilities, allowing us to gain an awareness of how this material can be shaped not only in classical and traditional forms, but also in increasingly modern and original solutions.

La linea di prodotti Gonzato Design by Arterferro è stata ampliata con tanti nuovi articoli e raggruppata in famiglie: Geometric, Revolution, New Waves e tante altre tutte da scoprire!

The Gonzato Design product line from Arterferro has been extended to include many new articles, and grouped into families: Geometric, Revolution, New Waves and many more to discover!

Con più di 20 società, sparse in tutto il mondo, Gonzato Group è leader nella produzione e distribuzione di semilavorati e sistemi modulari in metallo per l'edilizia e l'architettura. I suoi prodotti, distribuiti in 136 paesi, sono stati scelti per proteggere ed adornare alcuni dei più importanti edifici e complessi mondiali, tra i quali il palazzo di Giustizia ed il Colosseo di Roma, il parco Terenure di Dublino, Disneyland a Parigi e molte altre prestigiose ville e residenze da Hollywood a San Pietroburgo, passando per Londra, Pechino e Saint Tropez.

With more than 20 companies spread throughout the world, Gonzato Group is the leader in production of semi-finished products and modular systems in metal for construction and architecture. Its products, distributed in 136 countries, have been chosen to protect and adorn some of the most important buildings in the world, including: the palace of Justice and the Colosseum in Rome, the park Terenure in Dublin, Disneyland in Paris, and many other prestigious villas and residences in St. Petersburg, passing through London, Beijing, and Saint Tropez.

Un'azienda rivolta al futuro.

Dal 1971 siamo leader mondiali nella produzione e commercializzazione di semilavorati ornamentali per l'architettura. Tutti i prodotti sono frutto di studi attenti ed appassionati da parte di professionisti specializzati che conoscono il settore meglio di chiunque altro. Infatti è grazie alla attività del Gruppo che la produzione nel settore ha potuto svilupparsi tecnologicamente e progettuamente fino a diventare quel che è oggi.

L'esperienza maturata in oltre 40 anni di ferro battuto, ha consentito di sviluppare un altrettanto approfondita conoscenza dell'acciaio inox e dei suoi utilizzi nella recinzione. IAM Design, propone soluzioni più tecniche e stilizzate, mentre i manufatti in ferro battuto di Arteferro hanno caratteristiche di maggiore varietà ornamentale ma entrambe le linee di prodotti assolvono sempre a quelle stesse esigenze di protezione, sostegno e decorazione che ben conosciamo da sempre.

Nei cataloghi del Gruppo sono presenti oltre 32.000 manufatti per recinzioni ed arredamento, sempre pronti all'uso ed alla consegna. Grazie a questa esperienza pluridecennale che coinvolge tutta la filiera dalla produzione siderurgica, al design dei prodotti, alla loro realizzazione, all'installazione, siamo anche gli unici al mondo capaci di ideare con architetti e sviluppatori oltre che di realizzare ovunque grandi opere, forti del know how e della praticità dei nostri progettisti e operatori.

A company looking towards the future.

Since 1971, we are world leader in the production and sale of ornamental components for the building industry and architecture. All our products are the result of careful and passionate research by qualified experts that know the field better than anyone else. In fact, it is thanks to the Group's work if the production of metal elements for architecture and constructions has been able to grow in terms of technology and project management to become what it is now.

The experience acquired in over 40 years of work in the field of wrought iron allowed us to develop in the last 15 years the same deep knowledge in the field of stainless steel and of its fencing applications. As a matter of fact, our IAM Design line, while being more technical and stylized compared to the Arteferro components, meets the same needs of safety, support and decoration that we have always well known.

In the Group's catalogues you will find more than 30.000 fencing and furniture components always ready to use and ready to be dispatched. Thanks to our long experience, that involves all the production and supply chain from product design to manufacturing, to the installation support, we are the sole company in the world who is able to realize and install anywhere big fencing structures, relying upon our know how and the practical sense of our designers and members of our team.

Leader di mercato

- leadership nei 5 continenti
- presenza in 136 stati
- gamma di oltre 32.000 articoli

Certificazioni

- ISO 9001 - Gestione della Qualità
- ISO 14001 - Gestione Ambientale

Una realtà in continua crescita.

- Più di 20 aziende in 5 continenti con headquarter in Italia
- 4 stabilimenti produttivi
- 64.000 m² coperti
- Oltre 700 tra dipendenti e collaboratori
- 4.100 ton./mese spedite
- 40 milioni di semilavorati venduti mediamente in un anno
- Oltre 2000 clienti grossisti in 136 Stati nel mondo;
- Oltre 32.000 articoli diversi a stock

- more than 700 employees and contributors
- 4.100 ton/month shipped
- 40 millions of semfinished sold on average every year
- more than 2.000 wholesaler customers in 136 countries of the world
- more than 32.000 different articles on stock.

I nostri marchi Our brands

La gamma di prodotti Arteferro comprende oltre 32.000 elementi semilavorati ornamentali in ferro battuto, ottone e alluminio: barre forate, paletti forgiati, pannelli preassemblati, foglie, fiori, pigne, rosoni, ricci, cerchi ed altri elementi decorativi, oltre ad una ricca serie di complementi d'arredo. Sarà compito del fabbro assemblarli in oggetti finiti come parapetti, recinzioni o qualsiasi altra creazione gli suggerisca la sua creatività.

The range of Arteferro products includes over 32,000 semi-finished ornamental items in wrought iron, brass and aluminium: hollow bars, forged posts, pre-assembled panels, leaves, flowers, pine cones, medallions, curls, circles, and other decorative items, as well as a wide selection of furnishings. Blacksmiths assemble them into finished objects such as railings, fences or any other creation your mind can make up.

La gamma di prodotti IAM Design comprende oltre 2.500 elementi componibili e modulari in acciaio inox per realizzare parapetti, recinzioni, pensiline, scale ed altri elementi strutturali, per interni ed esterni. Il design moderno e lineare dei vari elementi consente una facile e veloce installazione e soddisfa le esigenze di architetti, progettisti e professionisti adattandosi perfettamente ad ogni tipo di ambiente.

The range of IAM Design products includes over 2,500 combinable, modular stainless steel elements, to make railings, fences, porches, stairs and other interior and exterior structural elements. The modern, linear design of the various elements allows for easy and quick installation and meets the needs of architects, designers and professionals, adapting perfectly to any type of environment.

Co.Ge.Me Steel S.p.A. nasce nel 1970 con una missione: entrare nella siderurgia di qualità da protagonisti, producendo acciaio che artigiani e industriali trovasse perfetto per le proprie esigenze produttive.

Co.Ge.Me Steel S.p.A. was founded in 1970 with a mission: to become a leader in the steel industry, producing steel to perfectly suit the production needs of both craftsmen and industry.

I nostri servizi "chiavi in mano"

Gonzato Contract è la divisione di Ind.i.a. che si occupa di fornire speciali, in ferro battuto, in acciaio inox o in qualsiasi altro metallo, per prestigiose proprietà private, edifici pubblici, alberghi, spazi comunitari e per ogni tipo di commissione che richieda un approccio custom made, dalla progettazione all'installazione. Affiancando il committente durante tutto il percorso, dai primi passi fino al lavoro finito, Gonzato Contract è partner ideale per ogni progetto e si pone nei confronti del cliente come unica responsabile della qualità del proprio prodotto e del servizio offerto.

Our "Turnkey" service

Gonzato Contract is the division of Ind.i.a. dealing with special supplies in wrought iron, stainless steel or any other metal, for prestigious private homes, public buildings, hotels, community spaces and for all types of commission that require a custom-made approach, from design to installation. Working alongside the client throughout the process, from the first steps to the finished work, Gonzato Contract is the ideal partner for any project, taking sole responsibility for product quality and the service offered.

Produzione

Dall'ideazione all'installazione, ci occupiamo di ogni aspetto del prodotto.

I nostri articoli, rispetto alla gran parte dei prodotti che si trovano sul mercato, sono realizzati nei nostri centri produttivi in Italia ed Europa, sottostando a test qualitativi che ci consentono di conoscere la vita di ogni pezzo, dalla sua nascita alla sua consegna.

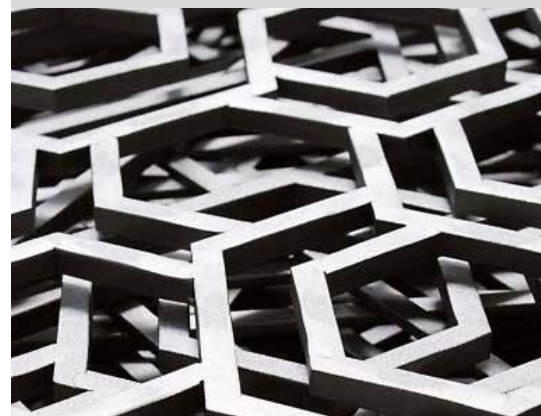

Inoltre, siamo l'unica azienda del settore che può vantare una capacità produttiva in grado di soddisfare ogni richiesta speciale entro tempi di stretta produzione.

Production

From concept to installation, we take care of every aspect of the product.

Our items, unlike most other products on the market, are manufactured in our production centres in Italy and Europe and subjected to quality testing; we know the entire life cycle of each piece, from creation to delivery.

Furthermore, we are the only company in the industry that can boast a production capacity able to meet any special request with such short production timelines.

Innovazione

Il cliente e le sue esigenze sono il fulcro della nostra attenzione. Per questo motivo un team di designers ed ingegneri lavora quotidianamente all'ideazione di nuovi prodotti che soddisfino sempre più la necessità di bellezza in armonia con le esigenze tecniche oggi esistenti.

Siamo costantemente alla ricerca di materiali diversi da accompagnare alle nostre linee per esaltarne le caratteristiche strutturali ed estetiche (legno, vetro e molti altri ancora).

Studiamo il design dei nostri prodotti in modo che possano essere al passo con i tempi. Crediamo che i prodotti debbano essere semplici da assemblare e da integrare con gli altri elementi architettonici in modo da potersi adattare all'ambiente in cui vengono installati con la massima flessibilità.

Innovation

The customer and their needs are the primary focus of our attention. For this reason, a team of designers and engineers work daily designing new products, combining our aesthetic standards with current technical requirements.

We are constantly looking at different materials to use in our lines to enhance their structural and aesthetic characteristics (wood, glass and many more).

We study the design of our products to stay in step with the times. We believe that our products should be easy to assemble and integrate with other architectural elements, in order to adapt to the environment in which they are installed with maximum flexibility.

Assistenza e servizio: la nostra forza Service and support: our strength

Ordinato, consegnato!

Con le nostre filiali sparse in tutti i continenti, disponiamo del più grande stock mondiale di articoli del settore e, grazie ai nostri accordi con i più importanti spedizionieri, possiamo garantire consegne celeri in qualsiasi paese. Inoltre, grazie al nostro portale Ind.i.a. web, i clienti possono rimanere aggiornati sulle scorte di magazzino e sui dettagli dei propri ordini.

Ordered, delivered!

With branches spread across the continents, we have the largest stock of articles in the sector worldwide, and, thanks to our agreements with major carriers, we guarantee prompt delivery in any country. Also, thanks to our Ind.i.a. web portal, customers can stay up to date on stock and the details of their orders.

Miglior prezzo

Le grosse quantità che trattiamo ci consentono economie di scala sulla materia prima. Inoltre, il prezzo dei nostri listini, è il prezzo del produttore, non soggetto a ricariche dovute alla presenza di intermediari. È un prezzo di fabbrica!

Best Price

The large volumes that we handle allow us economies of scale on raw materials. Also, the prices on our list are direct from the manufacturer, not subject to increases due to the presence of middlemen. These are factory prices!

Progettazione su misura

I nostri tecnici sono a disposizione per consulenze specializzate e sono in grado di sviluppare progetti su misura. Con la nostra divisione Gonzato Contract possiamo fornire anche soluzioni chiavi in mano, dalla progettazione all'installazione.

Bespoke design

Our technicians are available for specialised consultation, and are able to develop custom projects. With our Gonzato Contract division we can also provide turnkey solutions, from design to installation.

Prodotti per l'installazione, finitura e manutenzione

Oltre ai nostri articoli, forniamo anche i prodotti e gli strumenti per la loro installazione, finitura e manutenzione: attrezzi per il montaggio e il trattamento, vernici e patine per rifinire ed impreziosire, prodotti per la pulizia per mantenere la bellezza dell'installazione invariata nel tempo.

Products for installation, finishing and maintenance

In addition to our products, we also provide the products and tools for their installation, finishing and maintenance: tools for assembly and treatment, paints and patinas to refine and embellish, cleaning products to maintain the beauty of the installation over time.

Maggior valore al tuo acquisto

Greater value for your purchase

Un servizio clienti d'eccellenza

Il nostro staff di back office parla fluentemente cinque lingue diverse ed è a vostra disposizione per darvi tutte le informazioni ed il supporto che vi servono.

Excellent customer service

Our back office staff are fluent in five languages, and are on hand to give you all the information and support you need.

Un ufficio marketing a tua disposizione

Il nostro ufficio marketing è a disposizione per organizzare attività ed elaborare materiale promozionale personalizzato con il logo del cliente. Da anni ormai realizziamo volantini e cataloghi ad hoc per i nostri clienti più affezionati.

A marketing department at your disposal

Our marketing department is on hand to organise promotional activities and develop customised promotional materials with the customer's logo. We have many years' experience producing custom leaflets and catalogues for our most loyal customers.

Formazione

Con il nostro personale specializzato, organizziamo incontri di formazione tecnica: tutto ciò che bisogna sapere per progettare ed installare parapetti, cancellate, scale ed altri elementi strutturali a norma di legge.

Training

With our specialised staff, we organise technical training courses: all you need to know to design and install railings, fences, stairs and other structural elements in accordance with law.

Qualità garantita, certificata e brevettata

I nostri articoli vengono realizzati nei nostri centri produttivi in Italia e in Europa. Possiamo quindi gestire tutta la catena di produzione garantendo così la migliore qualità finale. Tale qualità è da anni riconosciuta anche dalle certificazioni ottenute ISO 9001 e ISO 14011. Un ulteriore valore aggiunto, sempre a garanzia di originalità e qualità, è rappresentato dai brevetti registrati per molti dei nostri articoli, con lo scopo di tutelare sia l'ingegno dei nostri designer sia la fiducia dei nostri clienti.

Guaranteed, certified and patented quality

Our articles are made in our productive centres in Italy and Europe. We can manage the entire production line guaranteeing in this way the best final quality. That quality is known for years by certifications ISO 9001 and ISO 14011. Another added value, confirming our originality and quality, is certified by many of our patented articles, in order to protect both the talent of our designers and the trust of our clients.

Gonzato Contract per un design senza limiti

Gonzato Contract, for design without limits

Gonzato Contract è la divisione di Ind.i.a. spa che si occupa di forniture speciali, in ferro battuto, in acciaio inox o in qualsiasi altro metallo, per prestigiose proprietà private, edifici pubblici, alberghi, spazi comunitari e per ogni tipo di commissione che richieda un approccio custom made, dalla progettazione all'installazione.

G O N Z A T O

C O N T R A C T

Gonzato Contract is the division of Ind.i.a. S.p.A. handling special supplies in wrought iron, stainless steel or any other metal, for prestigious private homes, public buildings, hotels, community spaces, and for all types of commission that require a custom approach, from design to installation.

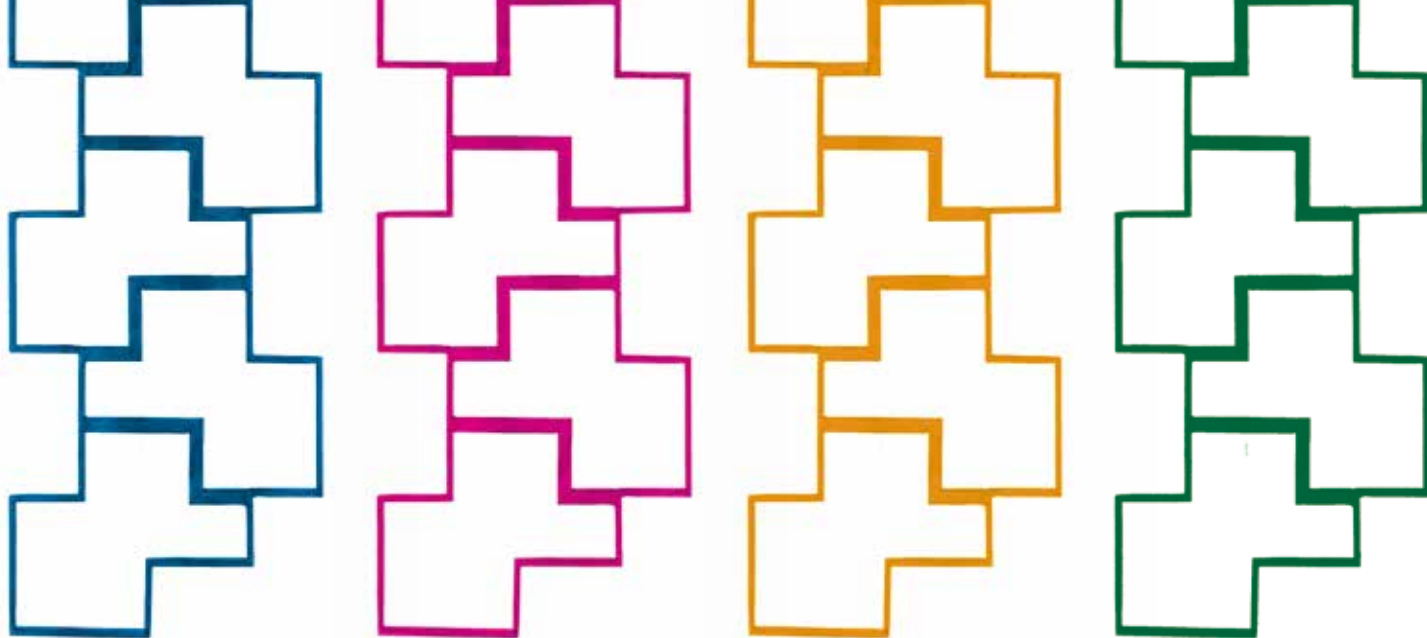

Personalizzazione al massimo della qualità!

Dal progetto, alla realizzazione, alla posa in opera ogni passaggio è svolto dai nostri progettisti e tecnici che sapranno soddisfare ogni esigenza strutturale, architettonica ed estetica. Inviaci la pianta del tuo terrazzo o della tua cancellata e penseremo noi a tutto il resto, anche all'installazione!

Customisation and top quality!

From design to production to installation, every step of the process is carried out by our designers and technicians, to satisfy every structural, architectural and aesthetic requirement. Send us a plan of your terrace or fence and we'll take care of everything else, even the installation!

Colori e Finiture

I prodotti Gonzato Design possono essere verniciati a polveri. La verniciatura a polveri è un procedimento di rivestimento delle superfici metalliche con un film organico, effettuato sia a scopo decorativo sia a scopo di protezione dalla corrosione e dagli agenti aggressivi. Se i prodotti Gonzato Design sono destinati ad uso esterno è consigliabile richiedere che siano zincati prima della verniciatura. Sono disponibili tutti i colori della cartella RAL, più alcune finiture speciali su richiesta che realizziamo grazie al nostro team di maestri verniciatori.

Colours and Finishes

Gonzato Design products can be powder coated. Powder coating is the process of coating metal surfaces with an organic film, for decorative purposes and protection against corrosion and aggressive substances. If Gonzato Design products are intended for outdoor use, check that they are galvanised before painting. All colours on the RAL colour chart are available, plus some special finishes, available on request, thanks to our team of master painters.

GEOMETRIC STYLE Pag. 13

La trasposizione della rigidità geometrica negli elementi in ferro battuto.

Geometric rigidity
in wrought iron elements.

LINEAR STYLE Pag. 31

Semplici linee ma sapientemente modellate creano volumi e richiamano il concetto di movimento.

Simple yet skillfully modelled lines create volume
and recall the concept of movement

FLOREAL STYLE Pag. 55

Le forme organiche e le linee curve si fondono con ornamenti a predilezione vegetale o floreale.

Organic forms and curved lines blend with
plant and floral inspired ornaments.

WAVES STYLE Pag. 71

La linea curva come elemento fondante a richiamo dell'immagine del mare increspato o dell'allegoria del vento.

The curved line as a basic element is reminiscent of
choppy seas or a representation of the wind.

L'evoluzione del ferro battuto è strettamente legata agli stili e alle tendenze ornamentali che hanno contraddistinto le diverse epoche: il classico, il gotico, il rinascimentale, il barocco, il rococò, il neo-classico, l'impero. Abbiamo quindi scelto di suddividere i prodotti Gonzato Design in base agli stilemi cui ognuno di essi è ispirato.

In quanto leader del mercato ci sentiamo responsabili sia di portare avanti la tradizione, sia di apportare innovazione nel nostro settore. Per questo motivo abbiamo creato delle categorie stilistiche nuove che, chissà, tra qualche centinaio d'anni potranno essere annoverate nella storia del ferro battuto.

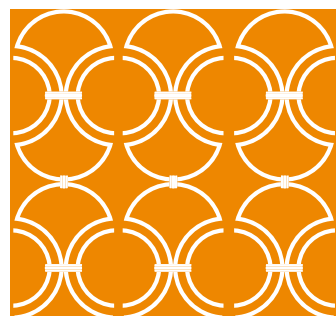

The evolution of wrought iron is closely linked to the styles and decorative trends that marked the different eras: classical, Gothic, Renaissance, baroque, rococo, neo-classical, Empire. We have therefore chosen to divide the Gonzato Design products according to the styles that inspired them.

As a market leader we feel a responsibility to carry on tradition, but also to bring innovation to our industry. For this reason we have created new stylistic categories, that perhaps in a few hundred years will be considered part of the history of wrought iron.

IMPERO Pag. 83 STYLE

La combinazione tra fasto e grandiosità con la ricerca di grazia, intimità e leggerezza.

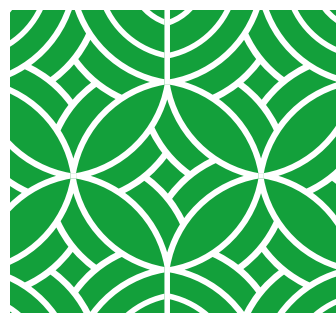

The combination of luxury and grandeur with grace, intimacy and lightness.

REVOLUTION Pag. 93 STYLE

Linee curve e forme geometriche si ripetono e combinano per dar vita ad uno stile "rivoluzionario"

Curved lines and geometric shapes are repeated and combined to create a "revolutionary" style.

NEW CLASSIC Pag. 103 STYLE

Intrecci e disegni che formano archi e volute

Woven lines and designs that form arcs and spirals

NEW LIBERTY Pag. 131 STYLE

Tra curve, volute e intersezioni, le possibilità del ferro battuto vengono sfruttate fino all'estremo.

Between curves, swirls and intersections, the possibilities of wrought iron are exploited to the extreme.

Saldature e lavorazioni di alta qualità

I nostri articoli vengono realizzati nei nostri centri produttivi in Italia e in Europa. Possiamo quindi gestire tutta la catena di produzione garantendo così la migliore qualità finale. Tale qualità è da anni riconosciuta anche dalle certificazioni ottenute ISO 9001 e ISO 14011.

Welding and production quality

Our articles are produced in our production centres in Italy and Europe. We manage the entire production chain, thereby ensuring the best final quality. Our quality has long been recognised by ISO 9001 and ISO 14011 certification.

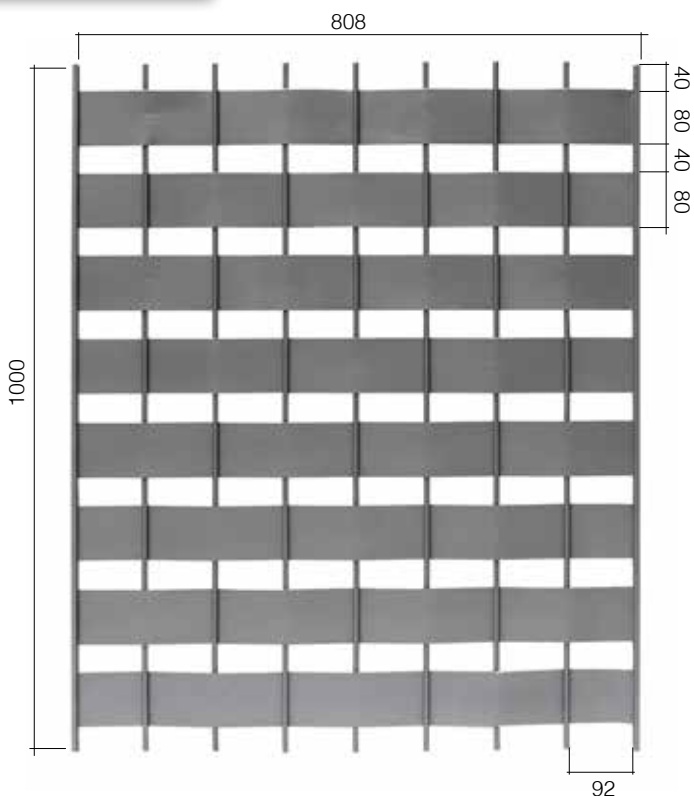

*Semplici linee ma sapientemente
modellate creano volumi e
richiamano il concetto di movimento.*

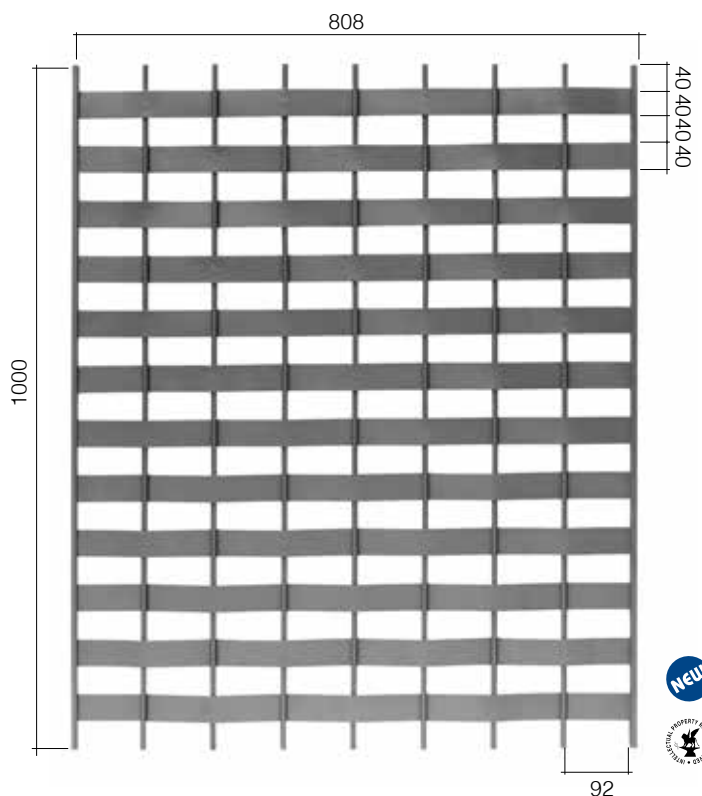

*Simple but perfectly shaped lines
create volumes and remember the
concept of movement.*

Alto valore aggiunto al tuo manufatto finale

Il valore finale della composizione è esponenzialmente più alto rispetto alla somma dei singoli componenti. Un grande risultato, con un grande risparmio.

High added value to your end product

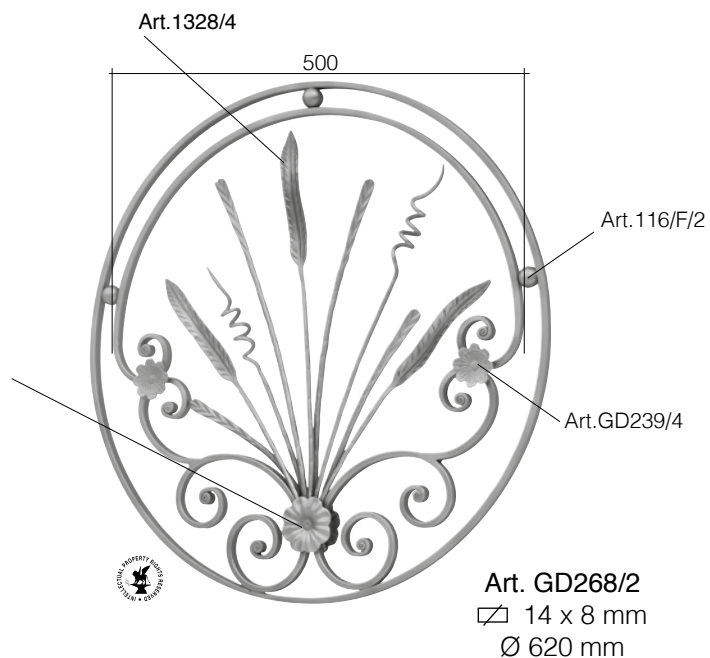

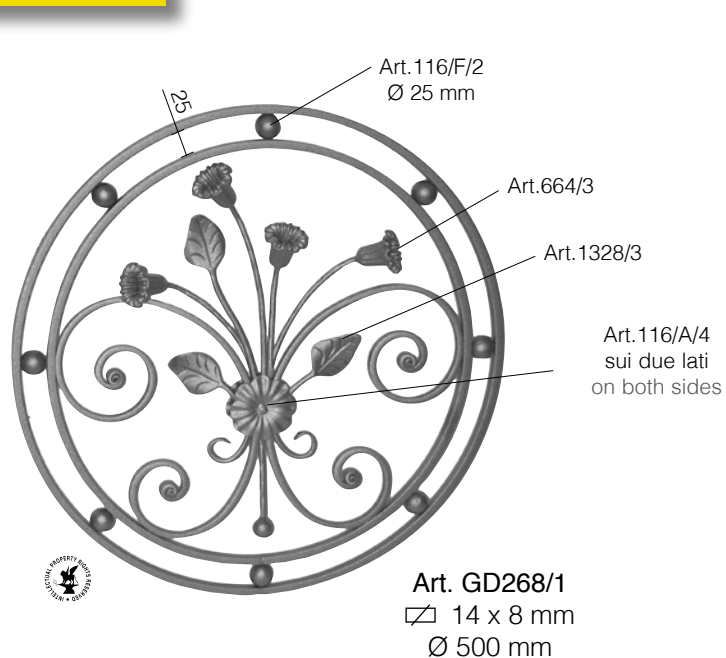

The final value is exponentially higher than the sum of the individual components.
A great result, a great saving.

Installazione più facile e più veloce rispetto ai classici paletti

Crediamo che i prodotti debbano essere semplici da assemblare e da integrare con gli altri elementi architettonici in modo da potersi adattare all'ambiente in cui vengono installati con la massima flessibilità.

Easier and faster installation than classic posts

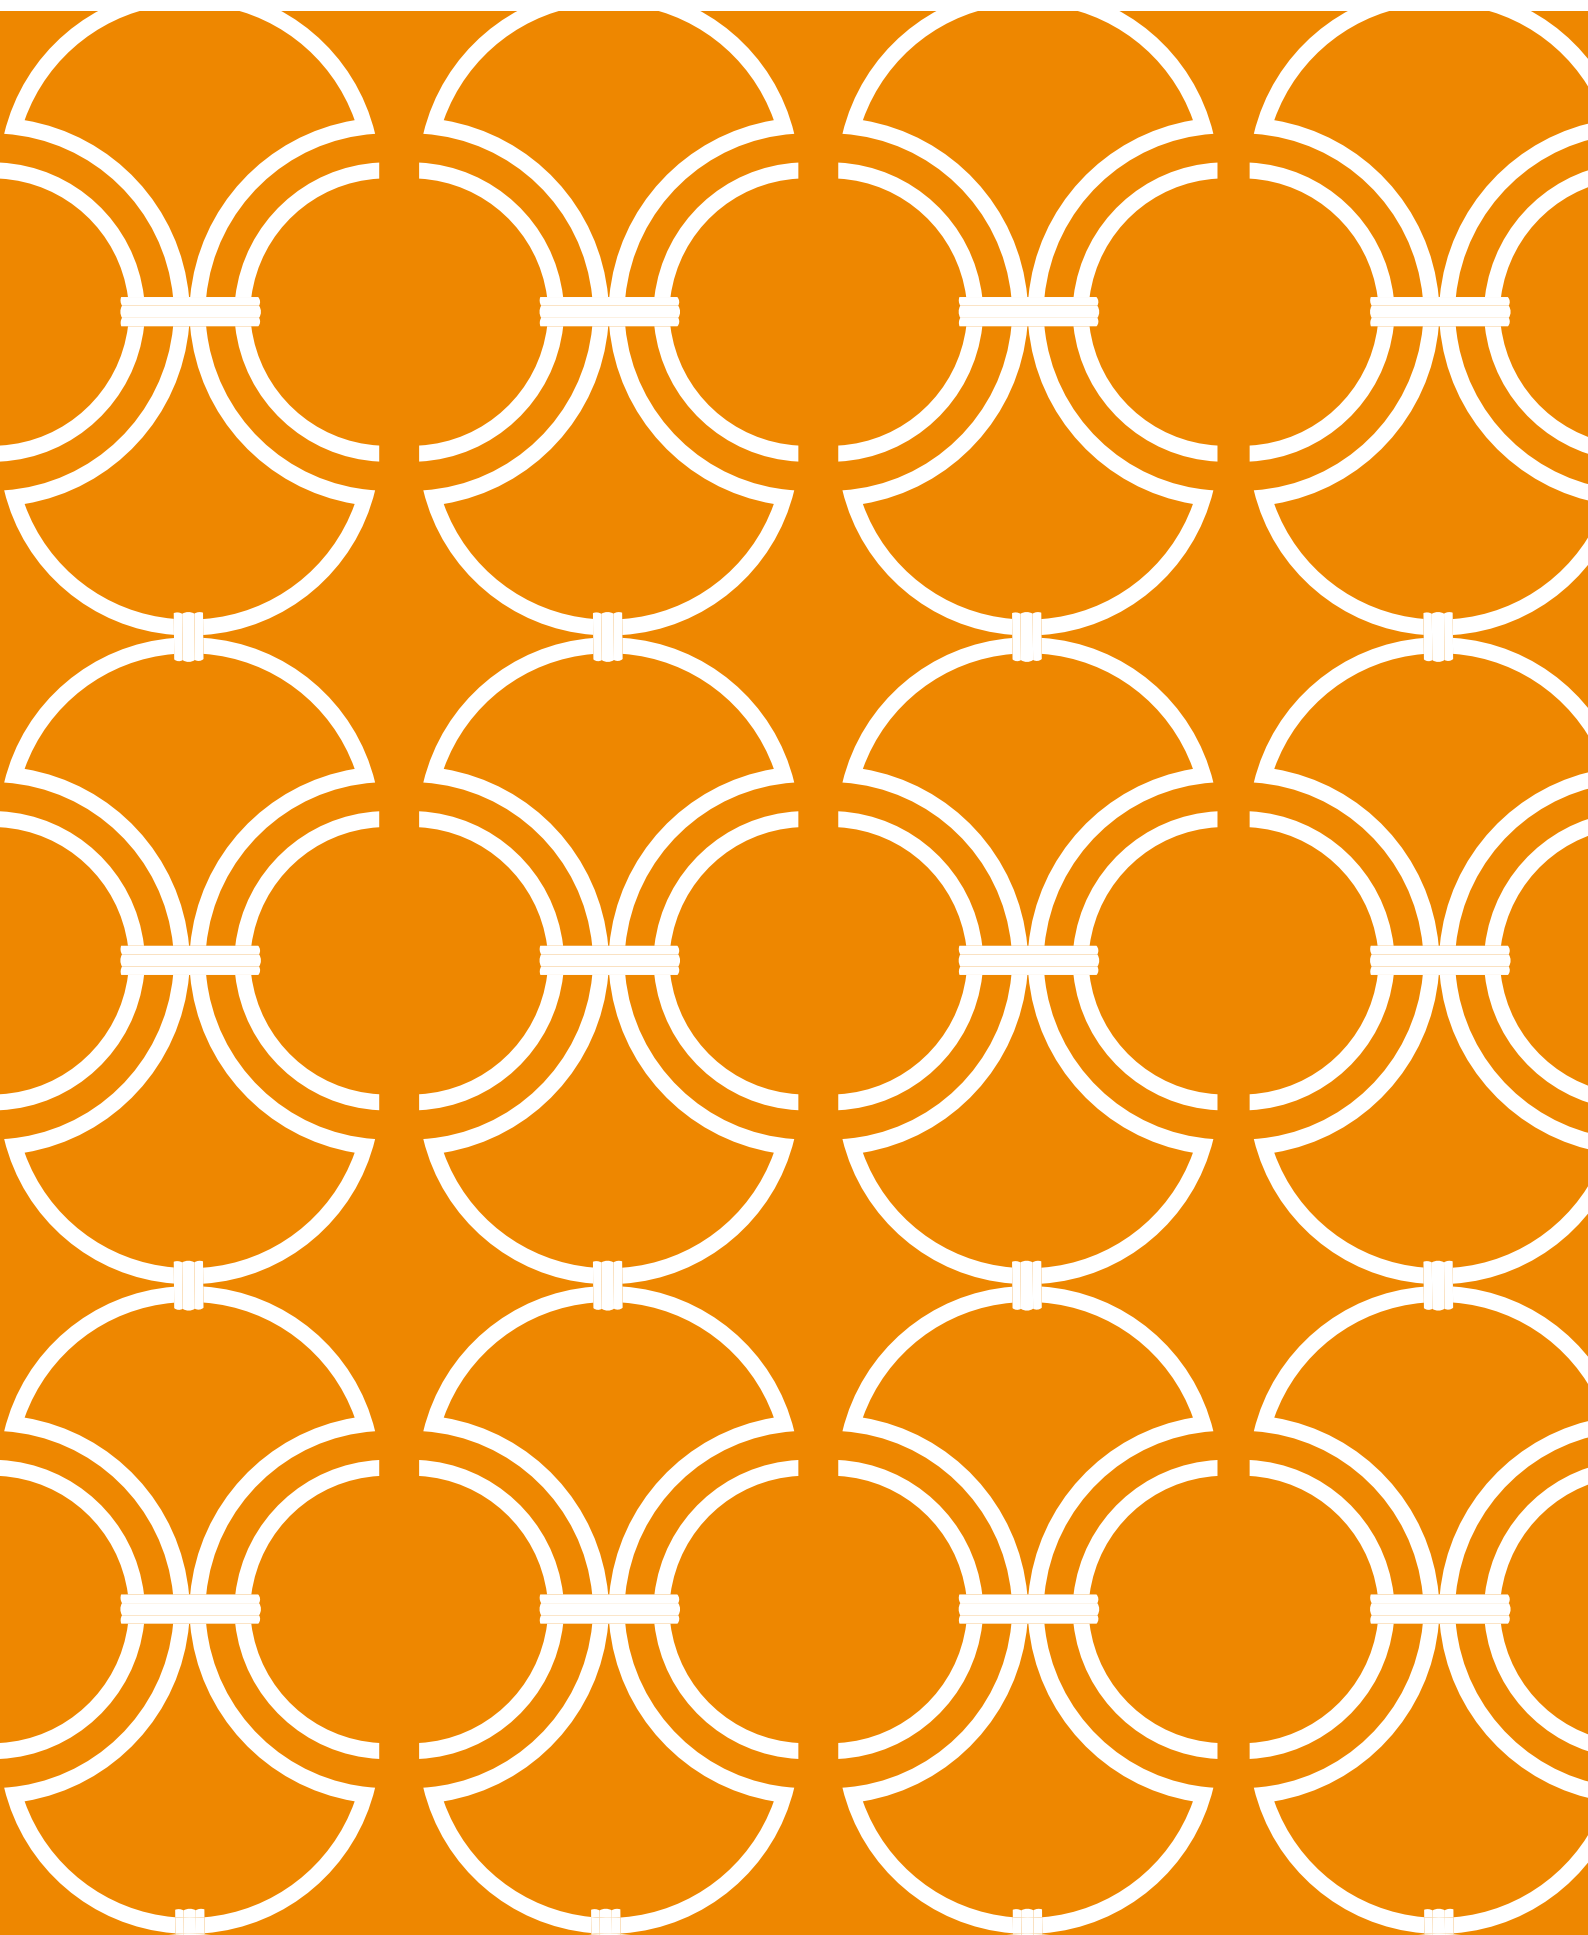

We believe that our products should be easy to assemble and integrate with other architectural elements, in order to adapt to the environment in which they are installed with maximum flexibility.

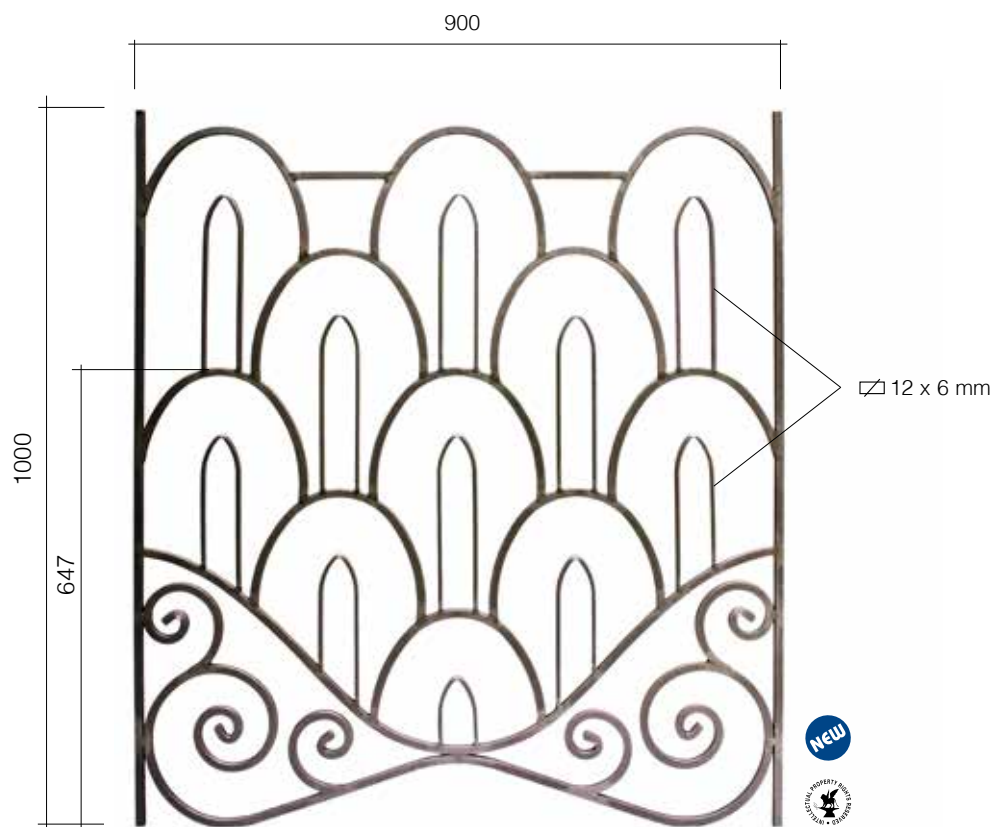

*La combinazione tra fasto e
grandiosità con la ricerca di
grazia, intimità e leggerezza.*

*The combination of splendour and
magnificence with a research of
grace, intimacy and lightness*

Ideale per installazioni in contesti moderni

I prodotti Gonzato Design si adattano molto bene in ogni ambiente ma il loro raffinato design, dalle linee pulite ed eleganti, permette di inserirli in contesti ricercati e moderni.

Ideal for installation in modern contexts

Gonzato Design products fit very well in any environment, but their exquisite design, with clean and elegant lines, makes them particularly suited for sophisticated and modern contexts.

*Tra curve, volute e intersezioni,
le possibilità del ferro battuto
vengono sfruttate fino all'estremo.*

*Between curves, scrolls and
intersections, the possibilities of
wrought iron are used at most.*

Eccellente rapporto qualità-prezzo

Il rapporto qualità-prezzo dei prodotti Gonzato Design è riconoscibile dalla costruzione ai particolari e si attesta come una delle prime scelte sul mercato, grazie alle sue eccellenti caratteristiche e finiture.

Excellent value for money

The value of Gonzato Design products is evident in the attention to detail; they are one of the top choices on the market, thanks to their excellent features and finishes.

Ricerca e Sviluppo

Research and Development

In Arteferro il cliente e le sue esigenze sono al centro dell'attenzione: un team di designer ed ingegneri lavora quotidianamente all'ideazione di nuovi prodotti che soddisfino sempre più la necessità di bellezza, in armonia con le esigenze tecniche oggi esistenti, che siano facili da installare e da integrare con gli altri elementi architettonici, adattandosi all'ambiente.

Costante è la ricerca di lavorazioni ed abbinamenti con materiali diversi, come ad esempio il legno ed il vetro, che caratterizzano ancora di più i prodotti e che soddisfano così anche le richieste estetiche più particolari.

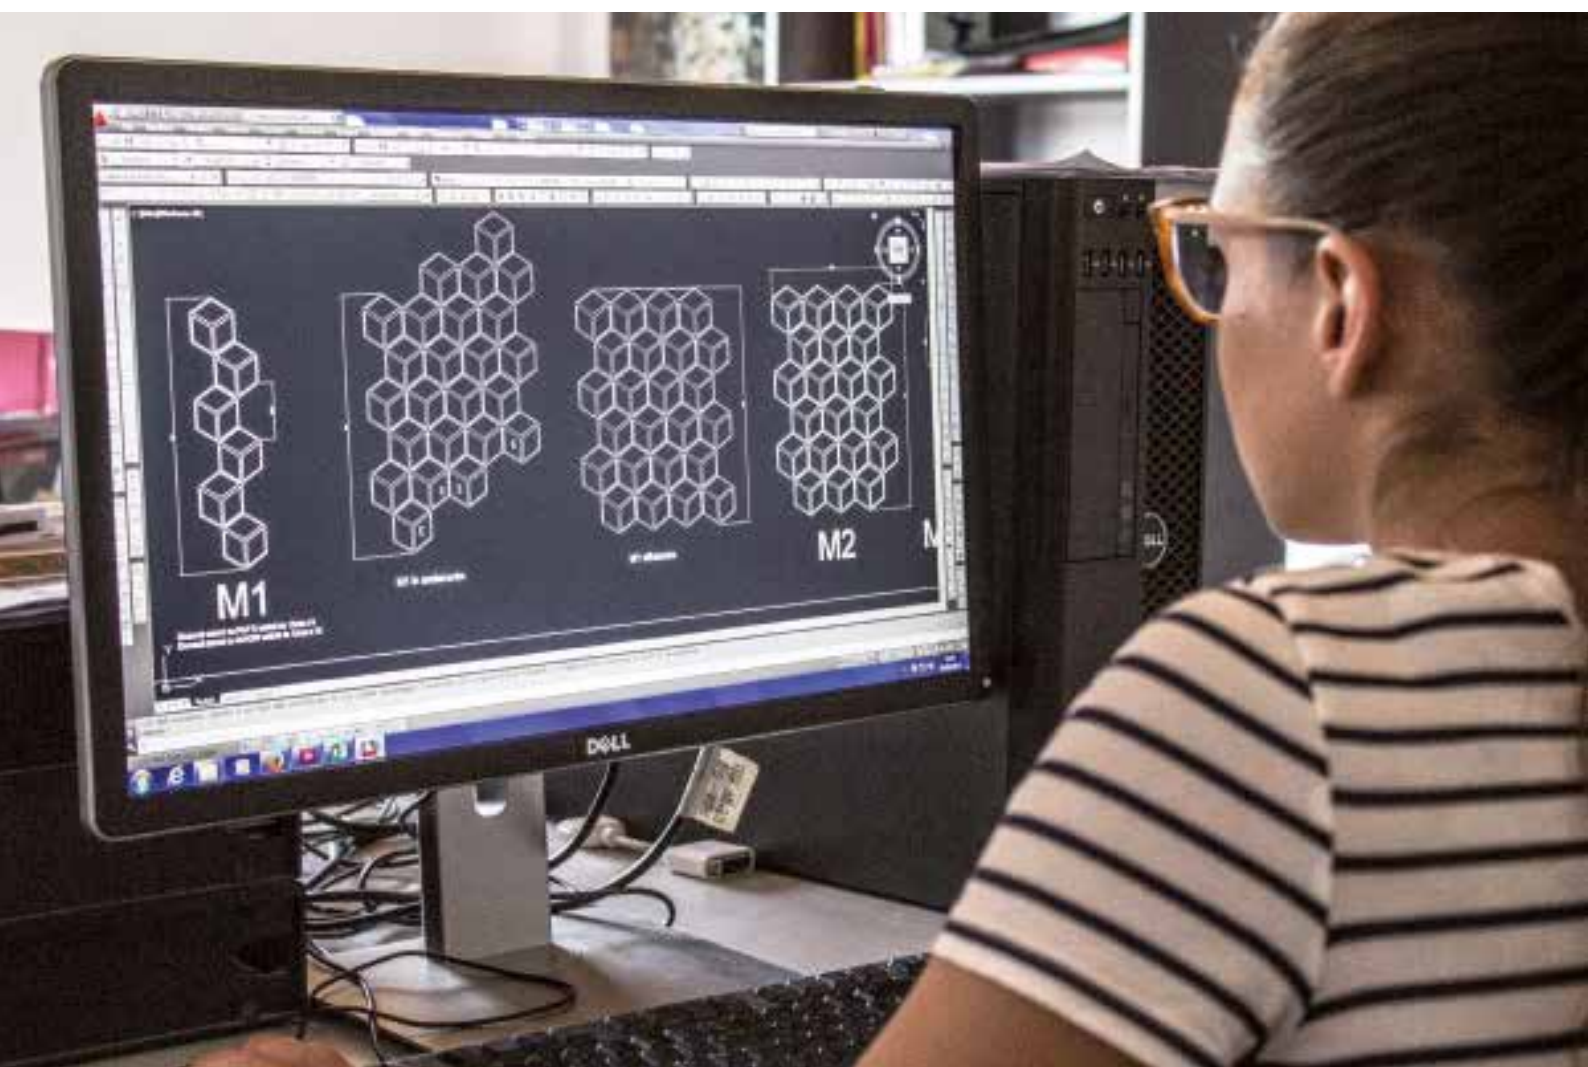

REALIZZAZIONI SU MISURA

Oltre ai numerosi articoli presenti a catalogo, disponibili in pronta consegna, Arteferro soddisfa anche le esigenze più particolari: un team di progettisti e tecnici è a disposizione del cliente per progettare e realizzare elementi ad hoc sulla base di richieste specifiche, il tutto in tempi rapidi.

At Arteferro the customer and their needs are the main focus: a team of designers and engineers work daily designing new products, combining our aesthetic standards with current technical requirements, which are easy to install and integrate with other architectural elements, adapting to the environment. The search for new processes and combinations with different materials, such as wood and glass, is constant, further setting our products apart and satisfying even the most particular aesthetic requirements.

CUSTOM CREATIONS

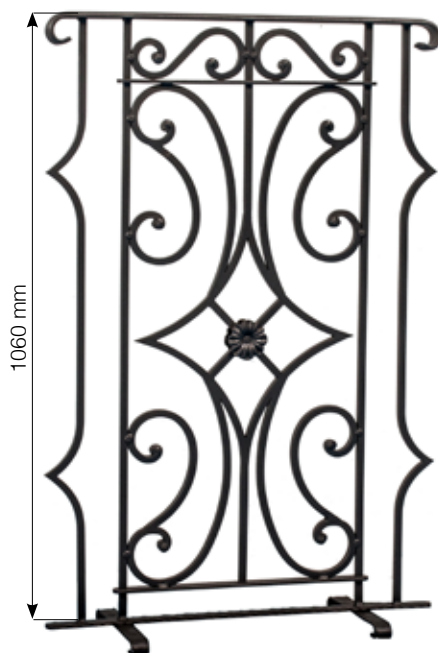

In addition to the numerous articles shown in the catalogue, available for immediate delivery, Arteferro is able to meet even the most specific needs: a team of designers and engineers is available to design and create special items based on specific customer requirements, within a very short timeline

Espositori - Displays

Sono disponibili su richiesta vari espositori, sia da tavolo che da terra, per valorizzare il tuo showroom. Tutti gli espositori da pavimento possono essere attrezzati con un pannello contenente grafiche e testi esplicativi.

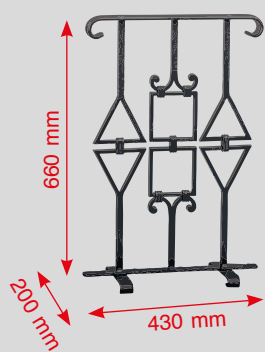

Several tabletop and floor displays are available on request, to enhance your show room. All floor displays can be equipped with a panel with explicative graphics and texts.

Parapetti e normative

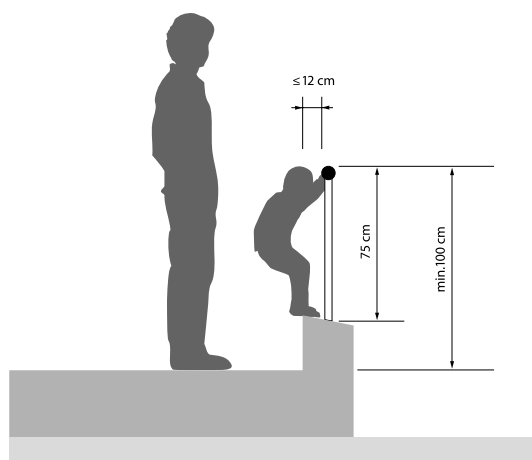

Balconies and regulations

Ogni superficie praticabile a persone che presenta un rischio di caduta da un' altezza di 50 cm o più, deve essere assicurata con un elemento di protezione. Secondo la norma UNI 10809:1999 l'altezza minima di un parapetto deve essere di 100 cm, misurata dalla superficie praticabile, e le aperture tra gli elementi di protezione non devono superare i 10 cm. Tali accorgimenti servono per impedire la scalabilità del parapetto e per evitare, ad esempio, che i bambini possano riuscire ad infilarsi tra gli spazi.

Surfaces that imply a fall risk from a 50 cm or more height must be safeguarded with a protective device. According to UNI 10809:1999 regulation, the balcony minimum height must be 100 cm, and any gaps between protective devices must not overtake 10 cm. These precautions prevent the balcony from climbing and avoid children squeezing in between the gaps.

Un installazione a pavimento di un parapetto Gonzato Design
A floor anchor installation of a Gonzato Design railing

In presenza di elementi scalabili la cui superficie d'appoggio è di larghezza superiore ai 12 cm l'altezza minima deve essere considerata a partire dalla superficie più elevata.

In case of climbable elements whose pillar surface is wider than 12 cm, the minimum height must be considered starting from the highest surface.

Praticabile, scalabile, arrampicabile

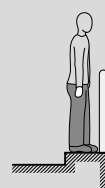

I termini «praticabile» e «scalabile» si riferiscono alla superficie dalla quale è misurata l'altezza di un elemento di protezione. Il termine «arrampicabile» si riferisce alla configurazione geometrica dell'elemento di protezione. Sono considerate praticabili le superfici su cui è possibile sostare con relativa facilità, senza particolari sforzi o acrobazie, senza tenersi con le mani e se queste si trovano a meno di 65 cm sopra la superficie praticabile determinante.

Sottili basamenti o coronamenti di muri sui quali è possibile salire, ma dove occorre tenersi all'elemento di protezione per rimanere in piedi, sono considerate superfici scalabili.

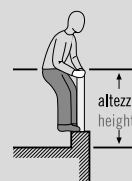

Accessible, climbable and scaling

"Accessible" and "climbable" refer to the surface from the which protective device height is measured, while "scaling" refers to the protective device's geometrical configuration. Surfaces shorter than 65 cm, in which it is easy to stand without the use of hands for support, are considered accessible.

Slim platforms or wall crowning where it is possible to climb, but where it is necessary to grasp at the protective device to stand are considered scalable.

Qualità e Sicurezza Quality and Security

I nostri prodotti sono da sempre progettati e realizzati per offrire il massimo livello qualitativo e di sicurezza perché vogliamo essere certi che siano all'altezza della funzione che andranno a svolgere. Per verificare la rispondenza agli specifici requisiti funzionali e prestazionali, effettuiamo nella nostra Test Area un insieme di prove, misurazioni, accertamenti ed ispezioni. I nostri prodotti sono anche testati qualitativamente prima, durante e dopo la produzione da personale esperto e specializzato. Da ormai 15 anni ci affidiamo a più enti di certificazione che sottopongono i nostri prodotti a diverse prove atte a determinare, in modo oggettivo, le loro prestazioni. La qualità progettuale e produttiva degli elementi Gonzato Design ci ha permesso di ottenere certificazioni secondo le normative attualmente vigenti in molti paesi europei e di garantire così la scelta della nostra clientela.

Our products have always been manufactured in order to reach the highest standards in quality and safety because we want to be sure that our systems are up to their function. To verify compliance with the specific functional and performance requirements, we carry in our test area a set of tests, measurements, investigations and inspections. Our products are qualitatively tested before, during and after production by qualified experts. Even more for 15 years we relied upon several certification authorities to certify our products, submitting them to several tests apt to determine in an objective way their performance. The design and production quality of Gonzato Design item allowed us to obtain certifications according to the standards currently in force in many European countries and to ensure the choice of our customers.

Area Test è a disposizione di tutti i clienti per l'esecuzione di collaudi ad hoc.
The Test Area is available to all customers to perform ad hoc tests.

Certificazioni
Certification

INFO

15 anni di Certificazione Qualità ISO 9001 ci permettono, anno dopo anno, di monitorare i processi aziendali e innalzare ulteriormente la qualità dei prodotti e dei servizi offerti. Il nostro rispetto per l'ambiente è certificato dal 2006 secondo la norma ISO 14001.

Certification: we obtained the ISO 9001 Quality Certification about 15 years ago. Such certification enables us to monitor the company processes and to further increase the already high quality of our products and the services that we offer. Environment friendly: since 2006 we are certified according to the ISO 14001 standards.

Un'area attrezzata di circa 110 metri quadrati dedicata ai test di collaudo su tutta la produzione. Oltre a poter garantire prontamente la resistenza degli articoli standard, Arteferro potrà verificare, con tempistiche ridotte, anche le capacità dei prodotti realizzati su misura per i propri clienti.

An equipped area of about 110 square meters dedicated to the quality control test on the whole production. Besides immediately guarantee the resistance of the standard items, Arteferro will check, with reduced timelines, also the products' ability realized custom-made for customers.

IL NUOVO LABORATORIO PROVE ARTEFERRO THE NEW ARTEFERRO LABORATORY TEST

Nella Test Area di Arteferro eseguiamo diverse prove per verificare la resistenza dei nostri manufatti. Tali controlli non sono imposti dalla legge e per questo siamo i primi al mondo a fornire sistemi certificati per parapetti in ferro battuto.

In the Arteferro Test Area we carry out numerous tests to check the resistance of our products. These checks are not imposed by law, and we are the first company in the world to provide certified systems for wrought iron railings.

PROVE STATICHE PRE E POST ROTTURA STATIC TESTS PRE- AND POST-BREAKAGE

Questi test vengono eseguiti secondo rigidi standard di sicurezza, i quali definiscono i criteri ed i carichi statici, concentrati e distribuiti, pre e post rottura, di ringhiere, balaustre e parapetti prefabbricati.

These tests are performed according to strict safety standards, defining the criteria and static, concentrated and distributed loads, pre- and post-breakage, of railings, balustrades and prefabricated railings.

PROVE DINAMICHE DYNAMIC TESTS

Questi test vengono eseguiti facendo impattare un corpo in movimento in un punto specifico del sistema parapetto. Il fine ultimo è quello di accertare il livello di sicurezza anche in caso di impatti improvvisi.

These tests are performed by striking specific points of the railing systems with a moving object. The ultimate purpose is to ascertain the level of safety, even in case of sudden impacts.

Il catalogo, comprese tutte le sue parti, è tutelato dalla legge sui diritti d'autore. Sono vietate e sanzionate (se non espressamente autorizzate) la riproduzione in ogni modo e forma (comprese le fotocopie, la scansione, la memorizzazione elettronica) e la comunicazione (ivi inclusi a titolo esemplificativo ma non esaustivo: la distribuzione, l'adattamento, la traduzione e la rielaborazione, anche a mezzo di canali digitali interattivi e con qualsiasi modalità attualmente nota od in futuro sviluppata)

The catalogue, including all its parts, is under copyright law. Any reproduction in any way and form (including photocopies, scans, electronic storages) and communication (including for example: the distribution, the adjustment, the translation and the revision, also through digital interactive channels and any other mode currently known or developed in future) is forbidden and sanctioned (if not clearly authorised).

Ci riserviamo il diritto di apportare variazioni tecniche di fabbricazione e di dimensioni ai prodotti. I prodotti originali possono differire leggermente dalle rappresentazioni fotografiche. A questo proposito non sarà accettato nessun reclamo.

We reserve the right to make technical changes of the production process and of the article's dimensions.

The original item can slightly differ from its picture. Hence no claims can be accepted in this regard.

Ind.i.a. spa declina ogni responsabilità giuridica non legalmente prevista per eventuali errori di stampa.

Ind.i.a. spa disclaims any legal liability not legally foreseen for printing mistakes

La somma massima prevista per i risarcimenti è rappresentata dal valore della merce integra.

The max reimbursement amount foreseen as claim for damages is to be referred to the value of intact goods

Si prega di osservare le direttive legali applicabili nelle varie regioni/nei vari paesi.

You are kindly requested to observe the directives applied in the different areas/countries.

I prezzi indicati sono netti per unità, imballaggio incluso. Tutti i prezzi sono IVA esclusa.

The prices are net per unit, packaging included. All prices are exempt of VAT.

Per ogni articolo è prevista una confezione minima indicata a listino. Eventuali ordini per quantità che differiscono dalla confezione minima o a multipli di essa, potranno essere automaticamente adeguati dall'azienda senza previa autorizzazione.

For each item a minimum packaging unit is foreseen, as indicated in the price-list. In case of orders with different quantities than those of the minimum packaging or multiple of it, the company can adjust them automatically without prior authorisation.
